

## NAPA INSTITUTE RIEDEL TASTING PREP INSTRUCTIONS

August 13<sup>th</sup>, 4PM Pacific Time

Thank you for joining us for our Riedel Performance glass tasting! Below you will find preparation instructions on how to best setup your tasting kit before the call. Please plan to begin setting up 45 minutes prior to the tasting.

The tasting kit includes 2 wines, as well as a 4-piece Riedel Performance tasting set. We will be using all 4 glasses from the set for this tasting. It is recommended that each taster receives a 4 ounce pour of both wines. Please note that there are 6 4oz. pours per bottle, so you will have plenty to share or save for later. Please place the white wine in the refrigerator upon delivery, and plan to place the red wine in the refrigerator 45 minutes prior to the tasting. Both wines can be removed a few minutes before the tasting begins.

Please wash the glasses (in your dishwasher or by hand) before your comparative tasting, making sure no interfering cardboard smell disrupts the delicate wine aromas. A standard dishwasher can be used as all Riedel glasses are dishwasher safe!

No less than 30 minutes before the webinar, set up your tasting station:

- Find a clear, clean area of the home with 2 ft. linear table or counter space (per person), and good wifi!
- Remove the "tasting mat" found inside the box, unfold, and place each glass on the corresponding circle.
- At about a few minutes to the start of the tasting, remove both your white and red wine from the refrigerator and open both bottles.
  - We suggest having a spittoon near your tasting mat. Enjoy responsibly!
- Finally, try to minimize distractions and get ready to enjoy the tasting!

When the tasting time rolls around click this [zoom link](#) to join the tasting. You can also bookmark the link in advance for easy reference. If you will be joining us on mobile, you will need to download the Zoom app prior.

Alternatively, you can phone in using the following numbers with meeting ID 835 0683 9982. If you are having trouble, the website link should always work.

- +1 669 900 9128 US (San Jose)
- +1 346 248 7799 US (Houston)
- +1 646 558 8656 US (New York)

Thank you and enjoy!
